

## Master class

October 26, 2019, the students of 101 and 116 groups of the faculty "Agricultural Mechanization" of the Karshi branch of TIAME with assoc. prof. I. Avazov of the department "General Technical Disciplines" organized a master class on the subject "CAD-CAE-CAM design system".

The students received information about the programs of an automated control system (ACS), their capabilities and advantages. Students received answers to their questions. The lesson was very informative and interesting.
