

The meeting of students and parents at Student's Dormitory

It should be noted that on October 30, 2021 at the 3rd dormitory of Tashkent Institute of Irrigation and Agricultural Mechanization Engineers there was organized the meeting of students and parents on the initiative of the educator-teacher A.S. Khaitova, with the purpose of studying the living conditions of our students, their parents decided to visit the hostel.

They were very interested in internal discipline, dress code, cleanliness, as well as the conditions created so that our girls could spend their free time in the right ways. After the long discussions, the parents were introduced with the living conditions. They got acquainted with sewing clubs, laundry, medical office, computer labs, library and spiritual rooms and informed that such opportunities should be used effectively as well. The management of the institute and the administration of student dormitories expressed gratitude for the opportunity.

They also suggested holding such meetings more often and working together. After our short visit to the hostel, a variety of delicacies were prepared by our students and the sweets and cakes were served on the table. Everyone could enjoy the dinner. This event demonstrated the best qualities of our girls as mutual respect, nursing, hospitality, and cooking. At the end of the event, our girls recognized the need to hold such events and meetings more often.

Information of A. Khaitova, educator-teacher 3-rd dormitory of TIAME.
