

Problematic lecture with a foreign professor

Problematic lecture with the participation of a foreign professor

On February 27, 2020, at the Department of Hydraulics and Hydroinformatics, a meeting held with the participation of a regional researcher from the International Institute for Water Management (IWMI) Dr. Lal Muthuwatt. The event attended by the faculty of the department, students of the educational direction "Water Management and Land Reclamation". Dr. L. Muthuvatta gave a lecture on the topic "Hydrological Modeling". The report examined the impact of climate change on water resources in the Aral Sea basin, including modeling the impact of climate change on Sri Lanka's water resources, problems, and solutions.

Students and teachers received answers to their questions. The meeting was informative. At the end of the event, Dean of the Department of Irrigation and Reclamation A.M. Fathulloev and doctoral candidate of the Department of Hydraulics and Hydroinformatics L.N. Samiev thanked Dr. L. Muthuvatt for the interesting report and handed him memorable gifts.
