

## Youth protection from negative influences

At the initiative of the Dean of the Faculty of Land Management Sh. Narbaev, Deputy Dean for Youth Affairs Kh.Eshova, was organized an event on the theme "Protecting youth from negative influences." The event was actively attended by 3rd course students of the faculty. The guest of the event was the deputy imam of the Yunusobod Oktepa mosque of the Yunusabad region, Akbarov Sherzoduz.

In his speech, the guest spoke about the role of national and religious values in the upbringing of our youth. In the country, as a priority direction of state policy, it is paid attention to the development of national traditions and values, a deep study of the scientific heritage of our great ancestors-scientists, the upbringing of loving their homeland, enlightened youth as an intellectual harmoniously developed generation. It is necessary to revive national values in a natural way, through the awareness of national identity. Cultural traditions, the spiritual heritage of the people for many millennia were considered the primary source of spiritual growth. And today they are the most important factor in educating the young generation in the spirit of devotion to their country.
