

## One more Pilgrimage

Thanks to Independence, our great ancestors and scholars have been transformed into places of worship where sacred places of worship, as well as visiting places of worship, remain forever in our hearts.

Human beings, nations are alive with a sense of historical memory. Therefore, the pilgrimage is a source of comfort for our souls and hearts.

In this regard, on April 30, the students of group 204 of specialty "Water management and land improvement" of the Hydromelioration faculty visited the Zangiota temple, together with the assistant of the department "Irrigation and melioration" M.Khayitova.

During the visit to the temple, students were given detailed information about the moral character, Judge and Physician, Sufi and Saint Zangi-ota.

Report by S.Khaitova
