

Consolidation of theoretical knowledge in practice

According to the order of the rector of the Institute No. 890 / t dated 27.11.2020, the first-year students of "Agricultural Mechanization" faculty began their internship on July 1 in the "TIAME training and production workshop". Here, students consolidate the theoretical knowledge acquired in the lessons in practice.

During the internship, students will learn the types of metal cutting in the mechanics department, metalworking in the welding department, and two methods of welding metals in the welding department: gas flame and electric arc welding. as well as turning, welding and plumbing work in collaboration with the attached masters. The internship will last until July 10.
