

Visit to the Memorial Complex for the Victims of Repression

Our people have a saying that "There is no future without a knowledge of history." In order to study the rich history of our people and the memories of our great ancestors the students from the group 403 of the faculty "Land Management" visited the Memorial complex for the "Victims of Repression".

The Museum of Remembrance of the Victims of Repression is the only museum in Central Asia dedicated to the victims of the Stalinist repressions. In this visit students received a lot of information about prominent personalities as Abdullah Kadiri, Fitrat, Chulpon, Khamza.

Press secretary of the institute Rakhimboy Djumaniyazov
