

## The academic lyceum is in the process of selecting talented students

Accomplishing the Decree of the Cabinet of Ministers of the Republic of Uzbekistan dated March 23, 2018 № 212 "On the order of selection of students of secondary schools in the academic lyceum" the staff of academic lyceum under Karshi branch of Tashkent Institute of Irrigation and Agricultural Mechanization Engineers introduced the new academic lyceum, the educational process, opportunities, conditions and its achievements.

Therefore, in order to prepare for the 2020-2021 academic year, visiting 60 schools located in Karshi district. The purpose of the visit is to identify and select the most talented 9th graders at the regional lyceum.

More than 40 schools have passed exams on special subjects prepared by academic lyceum teachers, and as a result, more than 180 certificates have been distributed. Graduates who receive this certificate will achieve 25% of the maximum score earned in the academic lyceum. The leaflets of the academic lyceum are being distributed during the visit.

In addition, the most talented, educated young people will be involved in the next process of the academic lyceum, and only the most talented will be selected to the first step. This process will go on prior to the admission process.
