

The youth of the makhalla are in sports clubs

It is important to grow up physically and spiritually healthy children. Indeed, the sports has invaluable role in healthy and harmonious development of the younger generation. Tashkent Institute of Irrigation and Agricultural Mechanization Engineers, Energy Supply of Agriculture and Water Resources Faculty, Mirzakalon Ismailiy makhalla youth visited sports clubs.

In general, as a result of large-scale work and measures taken to bring up our youth as mature people in all respects, they are proving that they have the same knowledge in science and sport ase other countries. That's the whole point of reform. Neighbors come together and once again share the spirit of friendship and solidarity.
