

The additional seminar- training for tutors at TIIAME

It is important to suggest that on November 3, 2021 there was organized seminar-training for the teaching staff on the topic "Targeted and effective methods of teaching youth", where the dormitory students participated.

The training was conducted by Professor Ismailova Zukhra, Head of the Department of "Professional Education and Physical Education", Chairman of the "Institutional Expert Council for Women's Affairs". During the training, it was noted that the dynamic processes of development in our rapidly improving life are observed in all spheres, the formation of a harmoniously developed generation in our country, the upbringing of young people spiritually and physically healthy, life of people and implementing the reforms into the life, which is really crucial. The workshop was organized in a very high level, participants got all answers to their questions.
