

Supporting youth entrepreneurship

"Improve your skills" project has been launched with the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers and the Youth Entrepreneurship Support Center of Uzbekistan. During this project, online and offline training seminars will be organized by entrepreneurs and successful people who have achieved significant results in their field in our country. The first training seminar of the project on "Time management" was held on February 3 at the Institute in the traditional way by Alisher Akmaljonov, Head of the Department of the Center for Youth Entrepreneurship Support of Uzbekistan, Director of IT Company "Makhorat Soft Info", Business Consultant, Ambassador Project Manager.

First, Alisher Akmaljanov presented the essence of statistical analysis to the students. When a person decides to change his or her lifestyle, time management is one of the key factors in completing his or her daily routine, morning studies, and work schedules throughout the day and making our day more productive. In main part, Alisher Akmaljanov conducted practical intellectual experiments aimed at expanding students' logical thinking and worldview. After that, the students addressed their questions, focusing on the benefits provided to young people in the field of entrepreneurship, access to credit, attracting investors. At the end of the meeting, Khaytboy Iskandarov, First Deputy Youth Leader of the Institute and Ambassador of the Center for Youth Entrepreneurship Support, thanked Alisher Akmaljanov on behalf of our leadership and students.
