

A contest for the smart

On March 27, in the room G-413 at 15.00, the 1st round of the Republican Olympiad was held by the faculty of the Department of Hydraulics and Hydroinformatics on subject "Hydraulics." Taking into account the fact that the Republican Olympiad is a topical and responsible issue of the department and the National Program for Personnel Training, the Republic Olympiad was held at the highest level in accordance with the requirements.

Professors and teachers of the Department of Hydraulics and Hydroinformatics teach the students with the dedication of the subjects taught. The students of our institute take part at the annual Olympiads of the Republic and win honored places raising the prestige of the institute.

According to the results of the first round of the Olympiad on "Hydraulic", the first place was taken by Jalolov Fazliddin, a student of group 304 of the specialty of "Water management and melioration" of the faculty of "Hydromelioration" with 341 points. At the Olympiad, the following students demonstrated their knowledge and actively participated:

1. Jalolov Fazliddin a student of group 304 of HM;
2. Dushaboyev Shakhboz a student of group 210 of HTC;
