

The mutual demand of science and the government

Collaborative results are not only beneficial for both parties, but also play an important role in ensuring the development of the industry. Therefore, the results of cooperation in scientific and practical spheres are fundamental. In this regard, the official visit of the delegation of the Russian Federal University of Russian Federation is of great importance.

The delegation visited the Institute on April 2-3, including Director of the Institute of Earth Sciences at the Southern Federal University, Kuznetsov Andrey Nikolaevich, Deputy Head of the Department of Educational and Scientific-Innovative Projects, Sitsuashvili Ruben Arturovich.

The Southern federal university is ranked the 531st in the QS TopUniversities and in the top ten in the Russian national ranking and is specialized in the field of hydrology, hydrogeology, land use.

The Vice-rector Bakhodir Suyunovich Mirzayev gave the guests thorough information about the institute firstly. Then a large-scale negotiations with the delegation were started. Also, all faculties' laboratories and scientific potential were demonstrated to them. In the course of the negotiations, the delegation had agreed on further cooperation with the delegates.

Guests also enjoyed a warm welcome at the sights of Tashkent.

Report by Sh.Rakhmonov, a director of the department of International Cooperation
R.Jumaniyozov, the press secretary of the institute
