

Seminar training at PSKOM HES

In accordance with the tradition "Master-Apprentice" initiated by Chairman of the Board of JSC "Uzbekenergo", Honored Builder of the Republic of Uzbekistan, Senator Sanginov Abdugani Abdurakhmanovich, at the construction site of Pskom HES was held a seminar training on "Developing the industry with young creative hydropower Engineers" on February 4, 2021. Talented and active 3-4 courses students of "Construction of hydraulic engineering (in water management)", "Hydropower facilities in irrigation systems", "Automation and control of technological processes and production" received excellent impressions.

During the seminar, students interacted with engineer-builders, received answers to many questions of interest to them, and expressed their desire to participate in the construction of hydraulic structures in the future. At the end of the seminar, Kurseitov Akhtem Seyranovich, a 4th year student of HTC faculty of TIIAME was awarded the 1st place and a valuable prize in the competition "Essay of impressions" among students HEI.
