

## Collaboration goes on

On February 4, a group of teachers of the Department of Geodesy and Geoinformatics, Associate Professor Ph.D., I. Musaev, Associate Professor Ph.D. O.Ruzikulova, assistant teacher A.Juraev and dean of the faculty "Land Management" (ERB) together with associate professor PD Sh.Narbaev conducted a roundtable on topic "Geoinformatics and cadastre" in the school No.150 of Yunusabad district. During the round table, the dean of the Faculty of Economics and Management Sh.Narbaev gave detailed information on the existing areas of education at the institute. In particular, the faculty is one of the leading institutions in the country for the training of highly qualified personnel in the field of land management, land cadastre, geodesy, geoinformatics, cartography and state cadastre. Since 2019, Associate Professor Sh.Narbaev has been leading the faculty. In addition, Tashkent Institute of Irrigation and Agricultural Mechanization Engineers (TIAME) provided detailed information on the areas of study at the faculties of HM, MHW, AM, ESAWR, OMAWR.

Speaking about the importance of "Geodesy and Geoinformatics", Associate Professor I. Musaev mentioned that there is a great demand for information technology in all areas. The school received 30 art books and 15 maps. Associate Professor O. Rozikulova asked the students to clearly define their goals. She noted that the accuracy of the goal means that its halfway achieved. We plan to hold the Olympiad in the spring in March. We encourage all students to be active. Cooperation with the school will go on a permanent basis.
