

## 5 + 1 lessons

President of the Republic of Uzbekistan Sh. Mirziyoyev's Decree No. PF-5847 "On approval of the Concept of development of the higher education system of the Republic of Uzbekistan until 2030" dated October 8, 2019, Chapter 3, Section 5, taking classes at industrial enterprises In order to go and effectively organize the internship of students of the Faculty of "Energy Supply in Agriculture and Water Management" 5430200-Electrification and automation in agriculture 3rd year 303 (r) -group students, March 5, 2020 Associate Professor of "ETvaEJF" T.Bayzakov together with the leading researcher of JSC "BMKB-Agromash" Professor A.Muhammadiev conducted a lesson on "Measurement of optical rays" on the subject "Electric lighting and irradiation". This lesson was very interesting and meaningful, and I am interested in becoming a person like Professor A.Muhammadiev in the future. The students received enough answers to their questions from Professor A.Muhammadiev.
