

## The role of women in society

A roundtable discussion on the role of women in society was held at the Faculty of Irrigation and Drainage. Enhancing the socio-political activity of women in our country, ensuring unconditional observance of their rights and legitimate interests, comprehensive support for motherhood and childhood, creating conditions for them to realize their potential in various fields and sectors, as well as strengthening the family. Extensive work is being done on. However, the state of affairs in this area shows that there are a number of systemic problems and shortcomings that hinder the full support of women, the organization of targeted work with them, the strengthening of the spiritual and moral environment in families and the creation of an effective mechanism of healing. In this regard, the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers continues to attract guests at the Faculty of Irrigation and Drainage.
