

Activities of our branch

On March 5, 2021, graduates of the academic lyceum under the Karshi branch of TIAME visited the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers. A vocational guidance event was organized for students of the Faculty of Organization and Management of Water Resources. The students were shown a video about the institute.

Dean of the faculty R. Khakimov spoke about the directions of undergraduate education, magistracy specialties, international relations of the institute and the conditions created for teaching students. Students also got acquainted with the Information Resource Center, laboratories, educational buildings, sports and fitness complex of the institute.
