

Strong motivator for young scientists

President Sh. Mirziyoyev paid special attention to the further development of science in the country in his Address to the Oliy Majlis. By the end of 2020, scientists under the age of 40 who have achieved the highest Hirsch index in the international scientific database Scopus in the field of mathematics, chemistry, biology and geology, received a one-time award of 100 million soums from the Youth Academy Talented Youth Support Fund.

Six young scientists with the highest Hirsch index won 400 million soums. Among them are three teachers from our institute.

Professor of the Department of Energy Supply and Renewable Energy Sources O. Tursunov (H-index - 14) in the field of chemistry received 100 million soums. By the decision of the Council of the Youth Academy under the Ministry of Innovative Development of the Republic of Uzbekistan, the young scientist was awarded a certificate of membership in the Youth Academy.
