

Internship at the Uzbek-Chinese joint venture "PENG-SHENG"

The need for continuity and integration of theoretical and practical knowledge is a requirement of time. On the initiative of teaching staff of Hydromelioration Department's Hydromelioration Systems Operation Department, 3rd year students of 307th group of "Innovative technologies in water resources management and use" specialty have been passing their practical training at the Uzbek-Chinese joint venture "PENG-SHENG", located in Syrdarya province, since June 21, 2021.

Students, under the guidance of teachers of the department, consolidate their theoretical knowledge at the plant for the production of pipes, hoses and parts for drip irrigation, as well as in greenhouses with modern irrigation systems.
