

Football competition among students of “Irrigation and Drainage” Faculty

With the purpose of promoting a healthy lifestyle among young people in Uzbekistan, within the framework of 5 initiatives, defined by the President, competitions are held in various sports among first-year students of the Faculty “Irrigation and Drainage”. In particular, the “Dean's Cup” on football was organized among the students of our institute. In the competitions that took place on 20.10.2011, 107-group received the 1st place. The students of the winning group were awarded with presents and the Dean's Cup.

To encourage their efforts and raise their enthusiasm, students from the winning group will visit the Museum of Olympic Glory. An agreement was reached on the further development of football in future sporting events. The first place students were invited to represent faculty at the Rector's Cup, and they were given the opportunity to work out in the gym after school without interrupting the learning process.
