

Competition among students with deep knowledge

It must be suggested that on November 5, 2021 on the initiative of the Youth Union of the Faculty "Mechanization of Agriculture" with the aim of organizing meaningful leisure for students, as well as further strengthening their socio-political and legal knowledge and increasing their intellectual potential "Zakovat" Intellectual games were organized. The event was attended by 55 students and the game was divided into teams in the form of questions and answers. It included 15 questions on history, literature, logic, law and geography. Participants tried to answer each question within a minute with the active support of the audience.

In the competition, the 1st place was taken by the team "Novators" of 308 and 308-gropus, the 2nd place was taken by the team "Zvezda" of 112-group, the 3rd place was taken by the team of 211-group. During the event, the dean of the faculty K. Shavazov noted that such intellectual games play an important role in strengthening the knowledge and developing thinking skills of students. At the end of the event, the winners and active youth were awarded with certificates of honor from the faculty and the Youth Union.
