The students were told that the rest of the rooms should be kept clean. Letters of thanks and books were awarded to 10 test rooms. The dormitory of the academic lyceum of the faculty has a TV, books, newspapers and magazines for our students, as well as a spiritual room for educational and cultural events. Our students are only required to discipline and keep the rooms and kitchens clean and tidy. "The best room" nomination was organized in a very high level. We think that all rooms will be modeled after the sample rooms.
