

Tutoring cooperation

It is interesting to note that on November 5, 2021 within the framework of training seminar for tutors, the dean of the faculty "Organization and management of water resources" A. Khakimov conducted the training "Interaction of tutors with faculties". During the training, the further development of Uzbekistan, which is largely depends on the knowledge, worldview and spiritual values of the next generation in order to live independently.

Patriotic education plays an important role in educating them with dignified, courageous, purposeful and vital positions in the country. It was said that in order to prepare students as an educated and with polite manners, teachers and youngsters must work in close cooperation together with the deans of faculties, deputy deans, professors and faculty of faculties. In order to improve the effectiveness of training, their proposals were discussed, The event was very supportive.
