

Open lesson for youth

"Of course, we will build a new Uzbekistan with young people, and 2020 will be a turning point in our youth policy, and I believe there will be many educated and courageous young men who will say, 'I will stand by you!' The best way to lead and follow is to be a personal example." We remember the President Shavkat Mirziyoev's address with these words.

President's Speech at the Palace of Culture of TIAME on December 27th at Youth Creativity School named after Muhammad al-Korazmi the open lesson was recorded by the creative and technical group of the Yoshlar TV Channel on February 6th. Talented students and professors of our institute attended this open lesson, candidate of philological sciences R. Jumaniyazov gave a lecture on the topic of the importance of public speaking, the role of speech culture, the quality and effectiveness of education in professional development, education and training, communication and management. As an example of initiative and organization, the open lesson, which was held in our own educational institution, was equally pleasing to students and undergraduates.

The President laid the foundation until the issue of speech culture was on the agenda. On 4th of October, 2019 the adoption of the Decree "On October 21st on measures to radically enhance the prestige of the Uzbek language as an official language", the announcement of the 21st of October as "The holiday of Uzbek language", the establishment of the of State Language Development and Termination Commission at the Cabinet of Ministers of the Republic of Uzbekistan, the initiative of holding Art and Essay competition are the evidence of his words. It's all about the culture of speech, the way we explain it, the way we do it. If we don't learn how to do it properly, neither performance nor long-term plans would be gained.

The event will be translated soon.
