

## "INNOPROM-2021" - the basis of the future "innovation"

On April 5-7 this year the international industrial exhibition INNOPROM-2021 took place. It was organized for the first time by the Ministry of Industry and Trade of the Russian Federation and the Ministry of Investment and Foreign Trade of the Republic of Uzbekistan.

This international industrial exhibition was actively attended by the teaching staff, young scientists, undergraduates and students of our institute. Lectures, master classes from representatives of various organizations and foreign guests were organized at the exhibition. The international industrial exhibition presented innovations in the field of energy, financing of international production projects, joint projects in the field of mechanical engineering, as well as new developments of domestic and foreign participants.

At the exhibition, specialists in various fields of transport and power engineering, technologies for cities, metallurgy and materials, technologies for plastics and rubber production and many others answered questions of interest.
