

A leader of the youth union was appointed at the faculty.

Knowledgeable and enthusiastic youth determines the fate of any nation. This fact has been proven a thousand times in history. What are the requirements today for young people who are the future of Uzbekistan? Are the opportunities, conditions and benefits created enough for young people to get an education, train a profession and demonstrate their potential and talents? Three years ago, on June 30, 2017, at the IV Congress of the Republican Youth Union "Kamolot" on the initiative of the President of the Republic of Uzbekistan Sh.Mirziyoyev, the Youth Union "Kamolot" was renamed and transformed into the Youth Union of Uzbekistan.

The 16 years of work of the organization were critically and analytically discussed, and new tasks and responsibilities were assigned to the Youth Union. There can be seen more shortcomings rather than successes when we look back! Although, it is true that there were achieved a lot of goals! But that's not enough! It becomes clear that young people need to unite for a common goal! The head of the primary organization of the Youth Union institution of Uzbekistan officially assumed his duties. In turn, youth leaders were elected in the faculties. Today was the election of the Land Management faculty leader. The leader of the faculty D.Jabbarova, as a 4th year graduate student, was awarded a letter of gratitude by the dean of the faculty Sh.Narbaev for her hard work with the students of the faculty during the academic year. Faculty members wished good luck in her further studies and work.

D.Nadirova, a talented 2nd year student who has been working side by side with D.Jabbarova for many years, was recognized as a worthy candidate for the position. She exchanged views with the course leaders and members of the faculty council on their plans and ideas. Working with young people is fun, exciting, but also challenging and responsible.

Information of H. Eshova, Deputy Dean for Youth Affairs, LM Faculty
