

Summary of international cooperation

In order to further develop scientific cooperation with the Slovak University of Agriculture in Nitra, a webinar was organized by the Department of Hydraulics and Hydroinformatics within the cooperation agreement. Prof. Tatiana Kaletova from the Department of Water Resources and Environmental Engineering, Faculty of Horticulture and Landscape Engineering made a presentation on "Water Use in Slovakia". More than 80 lecturers, doctoral students and researchers took part in the webinar, which was led by the Dean of the Faculty of Hydromelioration A.M. Fatkhulloev.
