

## Our national army is our pride

On December 5, 2020, 1st year students of the group 101 of the direction "Water management and melioration" of the Faculty of Hydromelioration under the guidance of the group curator Professor Matyakubov B.Sh. visited the State Museum of the Armed Forces of Uzbekistan in Tashkent, for the purpose of meaningful spending of free time of students. During the visit, the students got acquainted with the exhibits of the State Museum of the Armed Forces, learned that the State Museum of the Armed Forces was created in 1965 as the Museum of the History of the Turkestan Military District at the Central House of Officers, as the exposition was dedicated to the entry of Uzbekistan into the Russian Empire, and then into the USSR and the participation of Uzbek troops in the Great Patriotic War. The total area of the museum is more than 3000 square meters, it houses more than 10,000 exhibits.

The exposition of the museum occupies two floors. The first floor is occupied by a historical exposition. It reflects the military history of these places, from the Paleolithic to the end of the modern era. The medieval exposition is devoted primarily to Timur-Tamerlane and the Timurid era - the dynasty that ruled in the state he founded. On the second floor, there are two main expositions dedicated to the modern armed forces of Uzbekistan: guarding independent Uzbekistan, international military cooperation. The aim of the exposition is the military-patriotic education of youth.
