

Exhibits of the Geological Museum

Students of the 2nd year of education areas "Hydrology of rivers and reservoirs" and "Reclamation hydrogeology" of the Faculty of Hydromelioration together with the heads of the educational practice, teachers of the Department of Hydrology and Hydrogeology I. Ruziev and K. Eshkuvatov visited the Geological Museum.

In the museum students got acquainted with the richest inanimate nature of our republic, saw the most beautiful minerals, precious and semi-precious stones found in our land, learned what minerals Uzbekistan is rich in. The museum also has exhibits from various parts of the world.
