

## At the Innoprom-2021 International Industrial Exhibition

The first international industrial exhibition INNOPROM-2021, organized by the Ministry of Industry and Trade of the Russian Federation and the Ministry of Investment and Foreign Trade of Uzbekistan, ended today in Tashkent. More than 100 national and international companies take part in the International Trade Fair, which has been held in the pavilions of the Exhibition Center since April 5, offering their goods and services. Today the exhibition was visited by students of the group 307 of "Innovative technologies and their use in the water sector" of the Faculty of Hydromelioration, headed by the curator of the group Sanobar Dustnazarova.

During the international exhibition, the students were attracted by modern agricultural machinery and vehicles, products of our local companies and polymer materials. The main attention of the students was paid to the elements of drip irrigation system produced by the chemical company "Shurtangaz".
