

Fruits of Cooperation

There are many factors that determine the country's power. However, one of the most important of them is a spiritually mature, physically healthy, harmoniously developed generation that grows up in the country. The teachers of faculty of Management of Land Resources , including A. Bobojonov, S. Sharipov, N. Mirjalolov, dean of the faculty Sh. Narbaev, deputy dean for Youth Affairs Kh. Eshova visited the school 320 in Shaykhontokhur District.

They held a regular meeting among schoolchildren on "Future of our country in the hands of young people". The main purpose of such events today is to support our students, who are growing up after us, and at the right time to direct them to the right course. Our teachers have expressed their thoughts about the importance of such cooperation in protecting these children and their spiritual, educational maturity, to make every effort to use their time, to look at the future with a new look, to make new ideas, to conduct research, to be mature and to grow up.

Indeed, our wise men and women who know our history can find their place in the family as well. At the end of the event, a deputy dean of the faculty Kh. Eshova presented each of the elementary school pupils with interesting fairy tale stories by our institute.

Report by Kh. Eshova, a deputy dean of faculty of MLR
