

International Conference of Structural Mechanics, Hydraulics and Water Resources Engineering (CONMECHYDRO-2021 AS), organized by Tashkent Institute of Irrigation and Agricultural Mechanization Engineers.

According to the Resolution of the President of the Republic of Uzbekistan "On the Strategy of Actions for the Further Development of the Republic of Uzbekistan" dated 07.02.17, PD-4947 and "On Approval of the Concept for the Development of Water Resources of the Republic of Uzbekistan for 2020-2030" dated 10.07.2019. In accordance with the decisions of PD-6024, Tashkent Institute of Irrigation and Agricultural Mechanization Engineers on September 7-9 of the current year. Moscow State University of Civil Engineering, Peter the Great St. Petersburg Polytechnic University, Lisbon Technical Institute, Tashkent State Transport Institute. University, Karshi Engineering and Economics Institute and Kazakh-German University, in cooperation with JSC "Hydroproject" International Scientific Conference "Structural Mechanics, Hydraulics and Water Management" (CONMECHYDRO-2021 AS, <http://conmechhydro.tech/>)

Creation of a platform for analyzing existing problems in the field of hydropower, agriculture and water management, building materials and structures, hydraulics, hydraulic engineering, agricultural mechanization, electrification, renewable energy sources, technology, intelligent transport systems and transport logistics. The main goal of the scientific conference is to strengthen cooperation with prestigious foreign universities in the field of training highly qualified and competitive specialists. More than 600 authors from the USA, France, Japan, Hungary, Germany, Canada, Iran took part in the online conference. , China and South Korea. The discussed scientific articles are published in prestigious scientific and technical journals included in the international databases Scopus, Web of Science.
