

Practical training with the professor of Turin Polytechnic University in Italy

In educational laboratories of "Mechanization of hydromeliorative works", "Mechanization of Irrigation and drainage works" the professor of Turin Polytechnic University in Italy Maurizio Rosso conducted practical training among 4th year students of Mechanization of water reclamation discipline and Turin Polytechnic University students.

He provided both theoretical and practical information during the training. They exchanged ideas about comparing modern and current methods of rearranging pumping equipment. A seminar on pumping stations, water structures was held in the 4th Study Hall of the building "G". The seminar was full of questions and answers.
