### About I-II departments of the Tashkent Institute of Agricultural Irrigation and Mechanization

The first (special) and the second (military-accounting departments are an independent structural subdivision of the Tashkent Institute of Irrigation and Agricultural Mechanization of Agriculture and report directly to the rector of the Institute. In their daily activities, the first and second departments conduct regular work on the organization and conduct of military registration of persons liable for military service and draftees. They issue certificates confirming the training at the institute and issuing documents for granting a postponement from service in the army. Control certain issues of the activities of employees and students of the Institute associated with scientific developments and publications of materials in the media. Control over the departure of the employees and students of the Institute outside the Republic of Uzbekistan.
