

New generation with new initiatives

On January 9, the Republican Center for Spirituality and Enlightenment, the Youth Union of Uzbekistan, the Writers' Union of Uzbekistan, the Creative Union of Journalists of Uzbekistan and the Ministry of Higher and Secondary Specialised Education held an educational event on theme "New generation with new initiatives". Leaders of the youth union of the Tashkent Institute of Irrigation and Agricultural Mechanization Engineers also took part in the event. The sides exchanged views on the issues of youth enthusiasm and entrepreneurship. It is clear that the success and future of any society depends on the attention given to the younger generation.

It is obvious that President Shavkat Mirziyoev has strong belief and plans when he says, "Certainly, we will build a new Uzbekistan with young generation. 2020 will be a turning point in the state youth policy." When it comes to specific goals, it is necessary to have appropriate intellectual, potential young people and a harmonious generation. It was not accidental that President Shavkat Mirziyoyev met with young people at the Muhammad al-Khorizmi's school on December 27th.

During the meeting, one of the most important issues related to the solution of problems in the life of young people was discussed. "All this work is aimed at strengthening our language, nurturing young people in a spirit of respect and devotion to our national traditions. As it was already mentioned, a leader has to be followed by, then what is the cost of leading? Of course, interest is formed by mutual benefit. This is accomplished by the ability to give a speech. That is why it is time for young leaders to improve their speaking culture and oratory. Oriental thinker Kaykovus says in his "Qobusnoma"- "The best of all human abilities is the ability to speak." Webster-Take home, property, car, just give me the ability to speak.

The president, in his speech, spoke about the work of the literary writer Fitrat: This world is a battlefield. Healthy body, sharp mind and good manners are the weapon in this field.

We cannot deny the importance of public speaking in the systematic implementation of each of the five initiatives of the President's speech in districts and cities. At the event, the youth made their remarks and made speeches.
