

Permanent Appeal to the Presidential Address

Our students and all our compatriots are studying the message of the President of the Republic of Uzbekistan Shavkat Mirziyoyev to the Oliy Majlis on the most important priorities for 2020. From 3- 8 February, the President's Address to all courses taught at the Faculty of Land Management propagated. The event organized by the Vice-Rector for Youth Affairs R. Choriev, Sh. Khudoyorov. They emphasized that the appeal mainly gave students a great deal of opportunity, and a meaningful leisure for their studies, aspirations and leisure activities.

Students called 2020 as the Year of Development of Science, Education and Digital Economy, and in the Address "There is a misguided path where there is no science, science is the air we need, and the greatest wealth is intelligence, the greatest poverty. «It is ignorance," we all need to understand. The appeal also outlines the dangers that are taking place in the world today. When young people gave great opportunities, they told to use these privileges, and to use the libraries for their students. We need to educate our young people and realize their aspirations for science. We need to develop the system of preschool education, to improve the material and technical basis of secondary and higher education institutions, the quality of scientific and educational processes, to strengthen the health of our people, to establish a healthy lifestyle. If we achieve peace and health, we will achieve everything.

In the absence of plans, actions and activities, it is difficult to make a successful plan. In particular, the 17 most important aspects mentioned in the Address, the 16 laws envisaged for adoption and revision, and the codes, concepts, programs and strategies - all contribute to the prosperity of the Motherland and the welfare of our people. This process requires a great responsibility, initiative and involvement of our young people. These lectures were very informative and interesting. The students received answers to all their questions.
