

Supporting Women and Youth

Attitudes toward women are the main criterion for showing respect for the nation, the state, tomorrow and the future generation. In recent years, our country has established a system to ensure gender equality in society, improve working and living conditions for our women, and ensure that young people demonstrate their full knowledge and potential. In particular, in the current pandemic, more attention than ever has been paid to performance in this area.

A "beauty salon" operates in the student dormitory of the Faculty of Hydromelioration. Akhmadova Durdona serves her peers and shares the secrets of her profession and skill. Chairperson of the Women's Council of the Faculty of Hydromelioration Z.F. Beknazarova talked to her, learned about her problems, plans for the future and gave necessary recommendations.
