

Production practice report

☒ According to the order of the rector of the institute № 343 of May 28, 2020, 3rd-year students of Land Management faculty undergo practical training with teachers online.

The practice takes place at industrial enterprises and organizations at the place of residence of students. Online conversations between faculty and students are organized daily. In addition, during the internship, students were provided with online guides on life safety and compliance with quarantine rules.

Information prepared by the teacher of the department of geodesy and geoinformatics Utkir Islamov.
