

## With a sense of understanding and acting

✘ On January 24, the President of the Republic of Uzbekistan made an annual appeal to the Parliament of our country. Round table held with professors and students of "Energy supply of agriculture and Water resources" faculty about the President's Address to the Parliament. We should all understand the purported principles: "Where there is no knowledge, there is error. At the same time, the Address highlighted the dangers in the world today.

It will continue the following issues also discussed. They will solve professional development and remuneration of teachers. We will introduce a new system of vocational education. By 2020, the coverage of higher education graduates with higher education should increase by at least 25% and by 50-60%. Admission to higher education institutions will double, and girls' scholarships will increase. In higher education, the educational process will transfer to the credit-module system, the self-financing of higher education institutions, and at least five higher education institutions will transform.
