

Innovation center is being modernized

On May 10, 2021, in the partnership with the Ministry of Innovative Development of the Republic of Uzbekistan and the German Society for International Cooperation (GIZ), there was organized the conference "Modern Uzbek Innovation Centers - Goal 2022". More than 60 specialists took part in the conference, including representatives from Germany and responsible people from the Innovation Center of Uzbekistan, heads of scientific research departments of higher educational institutions. Karsten Haynes was the moderator.

The conference was opened by the Ambassador of Extraordinary and Plenipotentiary of the Republic of Uzbekistan to the Federal Republic of Germany Nabijon Sadykovich Kasimov, who gave full information about the goals and objectives of the conference. The Minister of Innovative Development of the Republic of Uzbekistan Abdurakhmanov Ibrohim Yulchievich expressed his opinion about the conference.

During the event, a memorandum of understanding was signed between the Ministry of Innovative Development of the Republic of Uzbekistan and the German Society for International Cooperation (GIZ) on the implementation of this project. A number of issues related to the training of specialists of innovation centers in Uzbekistan and the development of a training manual "On the management of innovation centers" with the participation of international experts, with the involvement of advanced German experience in the field of innovation in the project were also mentioned.
