

The power of solidarity

On December 11, 2020, at 10.00, during an information hour, together with students of group 112 of the direction "Professional Education" of the Faculty of Hydromelioration, was organized a seminar on the formation of feelings of devotion to the Motherland, patriotism and the strength of solidarity. The purpose of patriotic education is to form a sense of devotion and love for Fatherland, the desire to serve its interests and readiness to protect it, involvement in its fate, responsibility for its condition and development.
