

Integration of practice and educational process

✘ It is well-known that the harmony of science is of great importance both for human beings and for development. With the initiative and efforts of O.Jabriyev, the assistant professor of the department of Agricultural mechanization O.Jabiev, the first year students of faculty of Agricultural Mechanization get acquainted with "Agricultural machinery production organizations" in the subject "Agricultural engineering basics" . Practical period lasts on December 18-21. Currently, the students of the 1st course of the faculty "Agricultural Mechanization" are being acquainted with the work of the shops of the Tashkent Agregat factory of agricultural machinery.

**Report by I.Rakhimov, the deputy dean for educational affairs of the faculty of Agricultural
Mechanization**

R.Jumaniyozov, the press secretary of the institute
