

The future is in the hands of Youth

Definitely, the decisive role in the progress of any society is played by healthy and harmonious development of young generation, on which the future of this society depends on. On May 8, 2021 the first year student of TIAME M.Khurramov organized a meeting with graduating students of school No. 4 in Dekhkanabad district of Kashkadarya region, who shared his thoughts, gave information about the opportunities provided by the President, especially for youth.

It is notable that M. Khurramov could explain the students how to pay a serious attention while choosing a higher educational institution. The information was provided on a wide range of opportunities, created at TIAME in the sphere of education, scientific -research and creativity.
