

## About the activities of the Admissions Committee

The selection of applicants with knowledge and intellectual potential meets the interests of the country and its development. In addition, the priority is the task of choosing the real creators of the Third Renaissance on the basis of the faith given to the youth under the leadership of the head of our state. For the same reason, the Resolution of the President of the Republic of Uzbekistan, PD-5157 of June 22, 2021 "On the parameters of the state order for admission to higher educational institutions of the Republic of Uzbekistan in the 2021/2022 academic year, which is aimed at this goal.

It's no secret that TIAME, like all higher educational institutions, has a high level of attention to this issue, more precisely, the implementation of solutions. On the basis of the order of the rector of the institute dated June 26, 2021 "On the organization of the selection committee for the 2021-2022 academic year" N-324 , a number of works are being carried out there. Unplanned work is known as brick without form. Therefore, an action plan for the admission to a high level for the 2021/2022 academic year has been developed, and today its implementation is ensured at a high level.

It is based on one's own experience and ability to carry out this task. Therefore, it is important that the admissions committee created at the institute consists of experienced, honest and responsible professors. Applicants and their parents naturally have questions about the admission process and various directions. In order to promptly answer the questions of applicants and their parents, every day (except Sunday) from 09:00 to 18:00 the events of the "Call Center" and "Consultation Room" were organized. The call center allows you to simultaneously answer up to 4 calls in Uzbek, Russian and English. In addition, a telegram "channel" was created to provide information via social networks, and a telegram "bot" answered questions;

- The official website of the Institute (<http://tiame.uz/uz/page/qabul2021>) has been completely updated. The fact that the site allows job seekers to "submit online applications" also plays an important role in saving their time.

An important factor of interest to all applicants and applicants is the admission plan to the institute for the 2021-2022 academic year.

- Total for undergraduate (full-time): 1360 of them, state grants 505, on a paid basis - 855;
- A total of 825 forms of distance learning: on a paid basis;
- A total of 231 master's degrees, of which 189 are government grants, 42 are accepted on a paid basis.
