

# Water is life!

Water is life!

This morning, at our institute, events dedicated to March 22 - World Water Day, under the motto "Water and Climate Change", are held for 5 days. You are unaware that the UN General Assembly Resolution 47/193 of February 22, 1993, proclaimed March 22 - World Water Day. The main purpose of this day's celebration is to effectively use and conserve water for the human race, and to deliver the water resources to future generations.

In the morning event, students from the Karshi branch of the Institute, Namangan Engineering Technology Institute, Samarkand State Architectural Institute and students of art and music school number 23 of Shaykhantahur district called "Water is life!" We were very pleased with the active participation in the posters exhibition.

The Tashkent Institute of Irrigation and Agricultural Mechanization Engineers and the United Nations Development Program (UNDP) are planning to hold a competition for university students in the following dates:

March 13, 10: 00-12: 00 "Water is Life!" posters exhibition;

14: 00-16: 00 Discussion on the Impact of Climate Change on Water Resources Management in Uzbekistan;

March 16, 14: 00-16: 00 intellectual game "Innovative ways to use water resources in the context of climate change"

March 17, 14: 00-17: 00 pm Contest of the film "Water and Climate"

March 18, 12: 00-13: 00 pm Contest of the best innovative technologies in the field of agriculture

14: 00-17: 00 Water and Climate Change seminar on World Water Day.
