

Sources of our love and pride

On May 8, Special Enhancement Cycle Action was held by the Military Topography Service of the Armed Forces in cooperation with retired officers. From the post of ordinary geodesist to the military topography service of the Ministry of Defense, he served as the head of the Cartography Center of the Ministry of Defense, a lieutenant-colonel, member of the Afghan War and a Member of the Delimitation and Democratization Commission of the Republic of Uzbekistan, Lieutenant Colonel Kolotilo Vladimir Nikolayevich, a lieutenant colonel, served in the military divisions and agencies of the military topography service of the Defense Ministry, served as the head of the electronic digital topography department of the Special Information Technology Center for Modeling and Simulation of Simultaneous Solidarity, Assistant Professor of geodesy and geoinformatics at the National University of Uzbekistan, lieutenant colonel Mirmakhmudov Erkin Rahimjanovich. During the discussion, the students were delighted with the roundtable on military patriotism and concepts that encouraged us to value the peace process. The guests were invited to the military department and were given gifts.

Colonel R. Minlishiev, the head of the military department of the institute
