

## Geodetic Marathon

During the last week, Geodetic Marathon was held among the students of the 2<sup>nd</sup> course of "Land Management" faculty, aimed at further strengthening knowledge and practicing practitioners. The dean of the competition was Sh. Narbayev, associate professor of "G and GI" department A. Inamov and activists of the Youth Union of the faculty. The marathon examined the students' knowledge and skills.

The marathon was held in three directions:

1. Getting the geodetic equipment to work;
2. Getting the number in N3;
3. Corner measurement in the 2T30P theory;

The marathon passed in a festive mood. The students pursued their individual and teamwork skills. Winners of the marathon are as follows: 1 - year student of the Faculty of Oriental Studies Nurimboyev Humoyun, 2 - team of the Faculty of Oriental Studies, 211 - team team. 3 - Winners will be determined in the next round. We would like to thank A. Inamov, the assistant professor of "G and GI" department who organized the competition, on behalf of the students.
