

The plague of the century

✘ Mankind is reaching new heights of progress. However, there are still a number of factors that threaten the future of peoples and nations around the world. One of these risks is the drug addiction. It is the duty of every person to fight this evil which has become a global problem.

The drug addiction still threatens the future of humanity. The most sad thing is that it causes serious crimes, disruption of families and gene pool. According to statistics, more than 500 million people worldwide suffer from drug addiction. Most of them are under 30 years of age. More than 200,000 people die each year from this evil. However, drug addicts account for 57% of global crimes. In this regard, in order to strengthen the fight against drug addiction in the Student dormitory 2, room 4, Lieutenant Senior Specialist of the 4th Battalion of the Tashkent Guard Department Rasulov Tohir Askarovich held a meeting with students.

The topic of the meeting was "Drug addiction - plague of the century" at the initiative of "Energy Supply and Water Resources" faculty, "Electrotechnics and Mechatronics" Department.
