The rector of TIAME professor Umurzakov U.P. attended at the meeting, as well as 1st Deputy rector prof. Mirzaev B.S., Deputy rector for International Cooperation Salokhiddinov A.T., Dean of the Faculty of Hydro reclamation Fatkhulloev A.M., Head of the Department of Irrigation and Land Reclamation Begmatov I.A., Head of the Department of Ecology and Water Management Karimov A.Kh., Head of the Department of Hydraulic Structures and Engineering Structures Bakiev M.R., Director of the Center for Advanced Studies and Retraining of Personnel at TIAME G.T.Bekmirzaev, and the head of the department of international cooperation Rakhmonov Sh. The rector of TIAME professor Umurzakov U.P. opened the meeting, introduced the staff of the institute. In turn, William Young introduced the World Bank experts. Then an exchange of views took place on the scope of regional and local work on water resources management in Uzbekistan. It was noted that the scale of work in the water sector is accelerating and it is important to introduce an integrated approach to solving regional water problems, including improving the qualifications of water sector employees. The meeting took place in a warm and friendly atmosphere. The World Bank noted the fact that the institute plays an important role in the water sector of the Republic of Uzbekistan.
